

The Way You Looked

The way you looked the night we met,
The way the shadows fell,
The way the moon was beaming,
The night we met.

The smell of spring, the sound of rain,
The cab, the car, the walk, the train,
The way you smiled and took my hand
Your looks, your lips, your laughter, and ...
The way you looked the night we met ...
Darling, I forget.

Your smile, your hand, each sweet regret,
The kiss, caress, the brief farewell,
The way the room was steaming,
The night we met.

The way you spoke the night we met,
The way you cast your lasting spell,
The way I sit here dreaming,
Darling, I forget.
